

What is LASBOS?

LASBOS

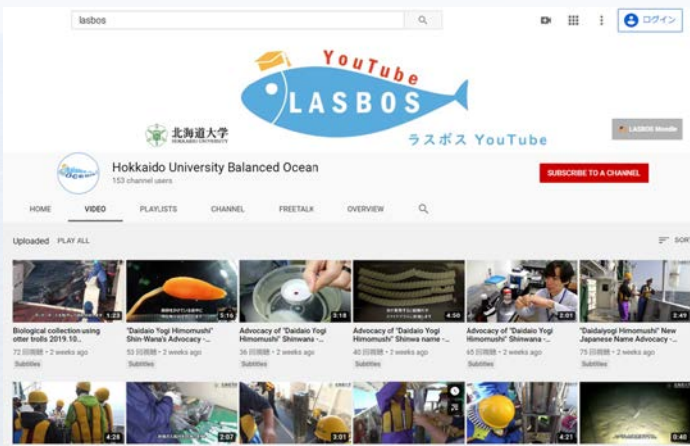

“LASBOS” stands for "**L**earning and **S**tudy by **B**alance de **O**cean **S**ystem".
Online course materials on marine chemistry, physics, biology, etc. provided by the Faculty of Fisheries Sciences, Hokkaido University.

LASBOS moodle

⇒ To the back side

LASBOS youtube

About 500 videos including lectures, student courses, fieldwork, guides, etc. are available! More videos with English subtitles are being added!

The significance of the International Year of Small-scale Fisheries 2022 (IYFA 2022) is explained.

Observation on Antarctic sea ice

Canning practice

LASBOS moodle

We have a variety of contents from basic experiments and practical training to cutting-edge research. Also includes information on the Oshoro-Maru Arctic cruise 2023! There are about 1000 contents!

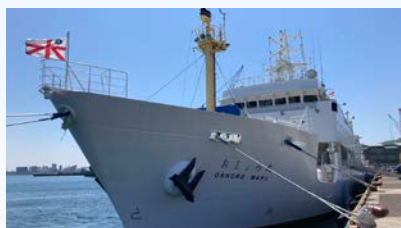

International Arctic Observation (MOSAic Expedition)

LASBOS
Balance de Ocean

LASBOS moodle not only presents the Oshoro-maru Arctic cruise 2023, but also the international Arctic observation in which many countries participated.

There are about 1000 other contents!

Report of Oshoro-maru
Arctic cruise 2023

Oshoro Diary written by
students participating in the
Oshoro Arctic cruise 2023

Column

In addition to research introductions, there are columns written by professors at Hokkaido University. Please take a moment to read them!

Enjoy my column articles.
